

# THE BLAIRMORE ENTERPRISE

VOL. XXXIII, NO. 38.

THE BLAIRMORE ENTERPRISE, FRIDAY, SEPTEMBER 18, 1942.

\$2.00 PER ANNUM.

"Serve the Church that the Church May Serve You."

**CENTRAL UNITED CHURCH  
BLAIRMORE**  
Rev. E. B. Arrol, B.A., Minister

Services Sunday next:  
11.00 a.m., Senior school.  
2.00 p.m., Junior school.  
7.30 p.m., Public Worship.  
Wednesday, 8 p.m., Prayer service.

**ST. LUKE'S CHURCH, BLAIRMORE**  
Rev. J. R. Hague, A.Th., Incumbent

Services Sunday next—  
10 a.m., Sunday School.  
11 a.m., Matins and sermon.

**SALVATION ARMY, COLEMAN**  
Lieut. R. D. Marks, Officer in Charge

Sunday services:  
10.30 a.m., Y.P. Directory Class.  
11.00 a.m., Holiness Meeting.  
8.00 p.m., Sunday School.  
7.30 p.m., Salvation Meeting.  
Tuesday: 7.30 p.m., Red Shield Auxiliary and Home League.  
Thursday: 8 p.m., Praise Meeting.  
Funerals and dedications on application to the local office.

## IN MEMORIAM

**TINLINE**—In loving memory of our dear mother, Mrs. Ellen Tinline, who passed away a year ago.  
"Gone is the face we loved so dear,  
Silent the voice we loved to hear.  
Too far away for sight or speech,  
But not too far for thought to reach.  
Sweet to remember her who once  
was here,  
And who, though absent, is just as  
dear."  
Ever remembered by the family.

## JOHN MAKIN PASSES

The Pass lost one of its oldtime residents at 3.30 Monday morning of last week, when John W. Makin, of Hillcrest, passed away in the Blaimore hospital following a lengthy illness.

He was born at Wigan, Lancashire, in 1877, coming to Canada in 1900, where he settled at Glace Bay, N.S. After a few years he came west, residing at Michel for a year. In 1913 he came from Michel to Coleman, where he worked for six years, and in 1919 he moved with his family to Hillcrest, where they have resided for the past 23 years.

Four years ago he suffered injury while working at Hillcrest mines and had been unable to work steadily since that time. Following the closing down of the Hillcrest mines, he gained employment at West Canadian Collieries, Blaimore.

Funeral service was held at St. Luke's church, Blaimore, Wednesday afternoon, Rev. J. R. Hague conducting. Besides relatives, a number of friends as well as Blaimore Elks were in attendance. Interment was in Hillcrest cemetery.

Surviving are the widow; two daughters, Mrs. David Lockhart of Fernie, B.C., and Mrs. Norman Miller of Hillcrest; three sons, William, Charles and John; one sister, Mrs. Dave Sudworth of Coleman, and five brothers, Thomas of Coleman, George of Boston, Tom of Halifax, Dick of Hillcrest, and James of Corbin.

Thomas was rather thrifty. On a visit to the United States, he decided to send a telegram to his office. On enquiring at the telegraph office he was told the charge, but that the sender's name would be free. "That's splendid," he replied. "I'm a Red Indian and my name is 'Cannacomborn Tam'."

## BELLEVUE SHOW WINNERS

(Continued from last week)  
Asters, 6—Mrs. Cole, N. Spooner, Mrs. Causey.  
Asters, 12—N. Spooner (1), Mrs. Causey (2, 3).  
Pansies, 6—Mrs. Shrett (1, 3), Mrs. Boyle (2).  
Pansies 12—G. Goodwin, N. Fleming, J. Boyle.  
French Marigold—Mrs. Curry, Mrs. Radford, Jr., Mrs. Causey.  
African lemon marigold—Mrs. Curry (1, 2).  
African orange marigold—Mrs. Curry (1).  
Dahlias, 3—N. Spooner (1), T. Clayton (2, 3).  
Show dahlias—T. Clayton (1, 2).  
Pompon dahlias—T. Clayton (1, 2), N. Spooner (3).  
Cactus dahlias—Mrs. Curry (1), Mrs. Radford, Jr. (2, 3).  
Hybrid cactus dahlias—N. Spooner (1), T. Clayton (2, 3).  
Decorative dahlias—T. Clayton (1, 2), Mrs. Curry (3).  
Three other varieties dahlias—T. Clayton (1), N. Spooner (2).  
Dahlias, 1 bloom—N. Spooner (1, 2).  
Collection of dahlias—N. Spooner, first.

Best dahlia in show—T. Clayton.  
Stocks, 3—T. Clayton (1, 2), N. Spooner (3).  
Collection of stocks—T. Clayton (1).  
Sweet peas—J. Curry (1), N. Spooner (2).  
Bouquet sweet peas—N. Spooner, J. Price, J. Curry.

Best arranged bouquet sweet peas—J. Curry (1), N. Spooner (2).  
Zinnias—Mrs. Humble (1).  
Phlox drummondii—T. Clayton, N. Spooner, A. Causey.

Phlox perennial—J. Curry, J. Price, N. Spooner.  
Double petunias—N. Spooner (1, 2), G. Goodwin (3).  
Single petunias—N. Spooner (1), J. Curry (2, 3).

Snappdragon—J. Price, J. Curry, T. Clayton.  
Roses—J. Radford, Jr. (1).  
Nasturtiums—J. Boyle (1), T. Clayton (2, 3).

Gladiolus, 6—G. Goodwin, T. Clayton, E. Cole.  
Gladiolus 3—G. Goodwin (1, 2), J. Dowson (3).

Gladioli, 1—D. Hutton, J. Radford, Jr., G. Goodwin.  
Best gladioli in show—G. Goodwin.  
Hollyhocks—N. Spooner (1), J. Radford, Jr. (2, 3).

Balsam—T. Clayton (1, 2, 3).  
Salpiglossis—J. Price, N. Spooner, T. Clayton.

Vase flowers—E. Cole, C. W. Johnson, S. Humble, E. Cole.  
Collection of perennials—S. Humble, J. Radford, Jr., E. Cole.

Fern—T. Clayton (1, 3), N. Spooner (2).  
Collection of house plants—T. Clayton (1).

Plant, any variety—B. Saynor (1).  
Wild flowers—Lena Toderan, Enid Shrett, Lucy Toderan, L. Hunter.

Woodwork—N. Sandulak (1).  
School section, grades 5 and 6—Maple Leaf; grades 1 and 2, Maple Leaf; grades 3 and 4, Maple Leaf.

Fancy work, men's socks—Mrs. Christie, Mrs. Humble, Mrs. S. Price.  
Fancy embroidery work—Mrs. Antel (1), Mrs. A. Rhodes (2).

Cut work—Mrs. Antel (1, 2).  
Lunch set—Mrs. A. Rhodes (1).  
Colored cotton embroidery work—Mrs. Rhodes (3).

Colored silk embroidery work—Mrs. Radford Jr. (2).  
Applique—Mrs. Radford, Jr. (1, 2).  
Embroidered towel—Mrs. Radford, Jr. (1, 2).

Crochet work on wool—Mrs. S. Price (1).  
Crochet work on cotton—Mrs. Antel, Mrs. Price, Mrs. O. Johnson.

Tatted work—Mrs. O. Johnson (1, 2, 3).

As a Royal Canadian Navy ship-of-war pulls away from the dock, officers of the Army and the Navy stand at the rail. Here is symbolized the co-operation between two services which enables swift movement of military forces on Canada's coastlines to shore positions, inaccessible by other means of transportation. Between all three of the armed services there is a high degree of coordination in defence, combining in a never-faltering vigil prepared to meet the enemy from any angle of approach to Canada.

—R.C.N. Photo.

## NEW MINESWEEPER NAMED "BLAIRMORE"

Word was received the early part of the week by Mayor E. Williams that a new Canadian minesweeper, recently launched at a Great Lakes port, was to be named after the town of Blaimore. At a meeting of the town council on Wednesday night, it was decided that some steps would be taken in a tangible manner show the town's appreciation of the honor, and it is hoped to raise funds sufficient to purchase some necessary equipment for the ship and its crew. Further announcement will be made shortly.

Cushion—Mrs. Radford, Jr. (1), Mrs. Humble (2).  
Pillow cases—Mrs. Johnson, Mrs. Antel, Mrs. A. Rhodes.

Fancy knitting—Mrs. S. Price (1).  
Patchwork quilt—Mrs. Rhodes (1, 2, 3).

Plain knitting—Mrs. Price (1), Mrs. O. Johnson (1).  
Crochet set—Mrs. Price (1).

Collection of dollies—Mrs. Johnson, Mrs. Price, Mrs. Rhodes.  
Fancy work not listed—Mrs. Price (1, 2).

School girls: plain knitting—L. Toderan (2); crochet work—M. Boutry (1); pillow cases—M. Boutry (1); L. Toderan (2, 3); embroidery work—M. Boutry (2), L. Toderan (3); novelty cushion—L. Toderan (1, 2); work not listed—M. Boutry (1).

Cooking: House Rolls—Mrs. Radford, Jr. (1), Mrs. Humble (2, 3).  
White bread from Purity flour—Mrs. Cousins (1, 2).

Brown bread—Mrs. Dowson (1, 3).  
Mrs. Humble (2).  
White bread from Robin Hood flour—Mrs. Dowson, Mrs. Cousins, Mrs. Saynor.

Open cream pie—Mrs. Radford, Jr., second.  
Apple pie—Mrs. O. Johnson, Mrs. Humble, Mrs. Saynor.

Scones—Mrs. Humble (1, 2).  
Flapper pie—Mrs. Radford Jr., Mrs. Saynor, Mrs. Dowson.

Light fruit cake—Mrs. Dowson (1), Mrs. Humble (2).  
Dark fruit cake—Mrs. Cousins, Mrs. Johnson, Mrs. Saynor.

Chocolate cake—Mrs. Johnson (1), Mrs. Dowson (2).  
Light layer cake—Mrs. Johnson (1), Mrs. Humble (2).

Drop cookies—Mrs. Saynor (1).  
Jars jam—Mrs. Saynor, Mrs. Humble, Mrs. Johnson.

Jars fruit—Mrs. Humble (1), Mrs. Johnson (2, 3).  
Jars pickles—Mrs. Humble (1).

Jars vegetables—Mrs. Johnson (1 and 2).  
Chocolate cake by children—Lena Toderan, D. Shevels, M. Boutry.

## DISTRICT BRANCH CANADIAN INSTITUTE OF MINING AND METALLURGY HOLD SESSION

The Crow's Nest Section of the Rocky Mountain Branch of the Canadian Institute of Mining and Metallurgy met in annual session on Saturday afternoon last at the Greenhill Grill, Blaimore, with about fifty delegates present from points between Burnis and Trail, including Mr. McNaughton of the latter point, and Mr. Miard from Fernie-Coal Creek.

Luncheon was served at the Grill at 1 p.m., followed by the business session, which included a very interesting and instructive film and sound entertainment by Mr. P. F. Peele, C. G. E., apparatus sales engineer of Canadian General Electric Co., on the subject "The Inside of Arc Welding."

At 3.30 the ladies were taken to the home of Mrs. J. J. McIntyre at Coleman for tea, and at 5.15 the business session ended, with members free to take the air of Blaimore.

At 6.15 a reception was held at the home of Secretary J. R. Smith, some fifty or more being present, including ladies. This event was followed by a sumptuous dinner at the Greenhill Grill, and a later reception at the home of Mr. and Mrs. J. A. Brusset, where the gathering enjoyed a moving picture programme of five films kindly displayed by Mr. H. Meade, proprietor of Meade's Baking Service, and depicting scenes in Australia, New Zealand, and the Rocky Mountains, etc., actually snapped by Mr. Meade himself.

A most interesting film is that showing the varied processes through which flour has to pass before it reaches the consumer in finished edible material.

A social entertainment followed this programme.

We understand that many matters of general interest to the mining industry were discussed at the convention.

Messrs. Miard, McNaughton and others from distant points, expressed their pleasure at visiting this section of the Pass again.

## A GAME PARADISE

The Eastern Irrigation District is Alberta's game bird paradise. Irrigation water provides ample reservoirs for ducks and geese. Hungarian partridge are numerous and the gorgeous pheasant has made himself at home here. So each year hunters by the hundreds are attracted to this district. Visiting hunters are welcome and their presence and patronage are appreciated, but they should observe the amenities of ordinary courtesy when it comes to invading farms. After all, the farmer has some rights on his own property.—Brooks Bulletin.

## HILLCREST HAPPENINGS

LAC Hugo Civitate is home from Claresholm on leave.

Sergeant Tony Lesson, of the tank corps, was home for a few days. Lily Chan and Cora Boetti left for Calgary during the week to enter business college.

People of Hillcrest were sorry to hear of the death of Pte. Tegwin Evans, who was killed in action at Dieppe. He is survived by his wife, Mrs. Phyllis Alice Evans, and one son in Hillcrest. He went overseas two months ago.

Pte. Leonard Rhodes, of Calgary, is visiting his parents here.

Mr. and Mrs. C. Lynn, of Pioneer Mines, B.C., were visitors at the home of Mr. and Mrs. Ray Anderson.

Dr. Goldberg, who had been medical practitioner here for the past year, has moved to Edmonton.

Bill Loza was a visitor with relatives and friends in Fernie.

At a recent meeting Hillcrest ratepayers protested the increase in mill rate of from 36 to 40 mills. It was explained by Secretary Donald Grant that this increase is necessary because the Hillcrest Collieries in liquidation pay less school taxes since their buildings and machinery on the mine property has been sold and removed. The explanation, however, was not accepted as satisfactory, and a motion by Dick Gardiner, former board chairman, and seconded by Pete Stefano, to the effect that people refuse to pay further taxes, was made. The secretary closed the meeting, stating that Mr. E. W. Himman, of Pincher Creek, who is official trustee for the government, will call a meeting of taxpayers and explain the tax increase thoroughly.

Kenny Anderson underwent a tonal operation at Pincher Creek. Mrs. A. Wishart, of Roseland, B.C., is visiting friends and relatives here. LAC Steve Beranek, who is stationed at St. John's, Quebec, is on leave with his parents here. Some of the teachers of the Crow's Nest Pass held a meeting in the Bellevue school on Tuesday evening of this week to consider the advisability of holding the annual track meet this year. The decision was that no meet be held this year. One bright remark by one of the representatives was: "The sports can't be held because it may rain for six weeks," but the real reason was that the schools lacked good athletes.

— "V" —  
**NO PROFIT IN BRITAIN**

No one in Britain is making a profit out of the war. Excess profits are taxed 100 per cent (with a small relief promised after the war). Income tax is at the rate of 50 per cent, and surtax brings it up to 97 1/2 per cent on all incomes in excess of \$80,000 a year. On an income of \$3,000, a married man pays \$995 in income tax. On an income of \$25,000 he would pay \$15,000.

— "V" —  
There are no restrictions to mailing copies of The Enterprise direct from our office to boys overseas. See us at the office.

— "V" —  
First of their kind to be introduced in Canada, a series of Conservation stamps have been issued by university authorities headed by Prof. Rowan, with the object of raising funds to further biological and conservation work among the Alberta bird population. The stamps sell at 25 cents each, or five for one dollar. All are different. The game branch and sporting goods retailers are co-operating in the sale. In the U.S., sportsmen have for some time been buying duck stamps at a dollar each for the same purpose, and the Alberta venture is first of its kind here. Dr. Rowan has won a name for himself for his pioneer research into bird life and habits. These stamps have been on display in The Blaimore Hardware window.

— "V" —  
The three men arrested, Joseph Hilton Smyth, 42, of Old Lyme, Conn., Massachusetts-born Harvard graduate and one time foreign correspondent and pulp magazine writer; Irvine Harve Williams, 40, of Noroton, Conn., British subject born in Japan and educated there and in Germany, and Matheson from Washington, D. C., Canadian-born teacher, author and lecturer, reared in Japan, who had worked his way into a post with the office of co-ordinator of inter-American affairs at the national capital, pleaded guilty to the espionage charge preferred against them. It is claimed that the three men had been paid lavishly by the Japanese government since 1937 to propagandize the United States and feed pro-Axis news to Mexico and the Negro press.

— "V" —  
Harvest-Thanksgiving service at Central United church on Sunday evening was very largely attended. The rostrum was very attractively adorned with flowers, fruits, vegetables, grains, etc. The children's choir assisted.

## SUNDAY SCHOOL LESSON

SEPTEMBER 30

## JUDAH: AN EXAMPLE OF SELF-SACRIFICE

Golden text: Hereby know we love, because he laid down his life for us; and we ought to lay down our lives for the brethren. 1 John 3, 16.

Lesson: Genesis 42-48.

Devotional reading: 1 Peter 2, 18, 25.

## Explanations and Comments

The Brothers stood before Joseph, Genesis 44, 1-12. Joseph is still at the house when the brothers arrive—he has expected a swift return. Again they bow low before him, all unconscious that they are fulfilling one of his early dreams. "What deed is this that ye have done?" Joseph questions. No one attempts a defense. The cup had been found—the fact can neither be denied nor explained. "How shall we speak, and how shall we justify ourselves?" Judah asks. "God hath found out the iniquity of thy servants." He does not deny the wickedness of the theft, but of their past lives, and especially of what they had done long ago to Joseph. "Behold, we are my lord's bondmen, both we and he also in whose hand the cup is found." "Far be it from me that I should do so," Joseph makes answer. "The man in whose hand the cup is found, he shall be my bondsman, but as for you, get you up in peace unto your father."

Joseph's interpretation for Benjamin, Genesis 44, 14-34. Sincerity and depth of feeling mark Judah's plea throughout. He first of all recalls to Joseph's mind the way in which he had insisted upon Benjamin's being brought to him. Very touching is his picture of his father's reluctance to part with Benjamin, a reluctance overcome only by dire hunger. His father had reminded them at parting of how he had lost Joseph, "and if ye take this one from me, and harm befall him," he had cried, "ye shall bring down my grey hairs with sorrow to the grave." His father's life was bound up in the lad's life, without him he would surely die. Judah had become surety with his father for the lad, and he ends his pathetic plea by asking that he be made himself a slave and Benjamin freed.

There are many things in the family life of Jacob and his sons that are far from ideal, but in one respect the picture is most pleasing, and that is the esteem, the well-justified reverence, which these grown men have for their aged father. Nothing could be more tender than their solicitude for Jacob in his old age. Filial love is a beautiful and redeeming virtue.

"What would I not give to be able to pray before the Lord as Judah here interceded for Benjamin; for it is a perfect model of prayer, any of the strong feelings which must underlie all prayer" (Luther).

## Smart Morning Frock

By ANNE ADAMS

News on the cotton front—in an easy-to-make frock that's different! Anne Adams has designed Pattern 4142 on simple lines and a smart, clinging bias inset piece at the waist. The surplus bodice buttoning is practical and smart.

Pattern 4142 is available in misses' and women's sizes 14, 16, 18, 20, 32, 34, 36, 38 and 40. Size 16 takes 3½ yards 35 inch fabric.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Unit, 176 McDermott Ave. E., Winnipeg, Man.

## CAN DEPEND ON IT

You cannot believe all you hear, but when you are approaching a railroad crossing and hear the whistle of an approaching locomotive it is wise to believe that a train is not far distant, says the Kitchener Record.

Benjamin Franklin invented the harmonica. 2481

## R.C.A.F. Bomber Crew Tours Canada

Members of the R.C.A.F. bomber squadron as they alighted from their plane upon their return from the raid on Saarbrücken, leaving an hour later for Canada. From left to right, P.S. Morrison, P.S. Sveinack, P.S. Les, P.S. Loach, P.O. Higham, D.F.C.

Five tired but still somewhat excited young veterans of the "air blitz" on Germany and occupied Europe sat in the Fort Garry Hotel at Winnipeg and recounted some of their experiences on more than 30 bombing raids. Quiet and somewhat diffident their accounts of some of the raids were factual and without any trimmings. What was more exciting was the fact that they were back in Canada for a visit and a holiday. As P.S. Karl Sveinack of Elfron, Sask., stated, "I can hardly realize yet that a few days ago we were bombing Saarbrücken and tomorrow I expect to see some of the folks from home."

Their flight home to Canada a few hours after bombing Saarbrücken is a history-making one and serves to spotlight for Canada the night-to-night achievements of thousands of young Canadians since the bombing offensive against Germany began. The entries in their log-book read like a travel folder. Cologne, Emden, Essen, Hamburg, Bremen, Duisburg, Düsseldorf, Warnemünde, Osnabrück are some of the names that appear in their records. Sometimes they are repeated once, two or three or four times. They are names that mean much since the opening of Bomber Command's big offensive but, but the lads who have been there speak of them familiarly as a tourist tells of the landmarks of his tour. Only the landmarks these bomber-crews speak of are the curtains of var-colored death-dealing flak that rose skyward from these cities, the dummy fires the enemy lights up to lure the bomber to heavily defended sectors, the bends and turns of the Rhine, Ruhr, Elbe and Weser Rivers glinting palely in the moonlight and the dark mass of an awakened city, and the terrible concentration of searchlights that combine with the flak and fighters to turn night into nightmare.

Three of the "hottest" trips made by the "Wimpy" crew were to Essen, Hamburg and Düsseldorf. "We came back from Essen with 14 flak holes in the kite," says P.S. "Siggy" Lee, of Minnedosa, Man., the navigator.

"They predicted us as we went in to the target and stayed with us. We managed to drop our bombs alright, but the searchlight beams forced us over to Cologne before we got away from them. We had to come down from 18,000 to about 3,000 feet."

Speaking of the Hamburg trip, his voice became almost reverent. "We really ran the gauntlet that night. It was the heaviest flak I've ever seen, and the searchlights were terrific too. Johnny was a bit too good for them though. That's the only reason we got back. He weaved his way through it like a miracle, and we came back without a single hole."

Düsseldorf will be long remembered by this crew. It was this operation that led to the award of the D.F.C. to Johnny Higham, the pilot who performed the remarkable feat of bringing the Wellington all the way back from the target on one motor. One enemy fighter is claimed as damaged by this crew. The fact that this is the extent of their claim is no discredit to the manhood of the gunners, but is a credit rather to the watchfulness of all members of the crew. A bomber's job is to bomb, not to engage the enemy in combat, but rather to avoid combat where possible and live to bomb another day. The attack came following a raid on Bremen, when an ME 110 attacked them twice coming in from ahead of them. "He didn't have time to open fire on us though, for Johnny turned the nose of our kite around his path and out-maneuvred him, getting on his tail instead of letting him get on ours," said Lee. "Art Loach in the front turret, got in several bursts and saw bullets sparking as they hit him. He dived off and we didn't see him again."

P.O. John B. Higham, D.F.C., who was born at Bohara, near Moose Jaw and now lives at Assiniboia, Sask., has done 31 operations. He is a Canadian of Norwegian descent. He joined the R.C.A.F. in 1940 on graduating from high school, and went overseas in 1941. He was posted to his present squadron in January of this year, joining one of the

first crews of this newly formed Canadian bomber squadron. In all his 31 "ops," Higham remembers Essen as the toughest. That was the night when flak and searchlights forced them down from 18,000 to 3,000 feet. It was his third trip as a captain. Previously he had been to Cherbourg and on the 1,000 bomber trip to Cologne as captain. His other "ops" had been as second pilot with a veteran crew. "We had to dodge searchlight cones. We weren't coned steadily but they flicked on and off all the time. But they weren't as bad as the flak that burst in front of us. I didn't enjoy seeing the rose of the kite going through the puffs of smoke," he related. Johnny Higham does not have much to tell about his 31 "ops," but the members of the crew who have been with him on most of them, all in the gaps with enthusiasm. He won the D.F.C. by bringing home his aircraft from Düsseldorf on one engine but characteristically gives the credit to his observer. "He did a wonderful job. If it had not been for him we would not have got back. He kept us clear of all places where there was flak or searchlights. We owe it to him that we're here."

The other crew members talk too, of their captain's skill in handling his crippled aircraft, which lost 8,000 feet the target when the motor cut. He managed her so skillfully that he was able to cross the English coast at 2,000 feet.

P.S. Sigurd Lee who will celebrate his first wedding anniversary in October, is a Canadian of Norwegian descent. He has made 22 bombing "ops." Siggy's parents were both born in the old country, he was born at Minnedosa, Man., and does not speak Norwegian. After leaving school he went into a bank and in 1939 joined the C.P.R. as a brakeman. He has been braking trains since 1939, and is now a brakeman, and is almost as proud of this service as he is of his service in "Wimpy's." "You have to pass a stiff medical to be a brakeman as you have to join aircrew," he maintains. There is a good story in connection with Siggy's flight to Canada. Early this summer his wife told him in a letter that she had a premonition that he would be home on August 11, her birthday. Sometime later he and other crew members were told that they would fly to Canada following some future "op," when conditions were found to be favorable for such a flight. Nothing happened until August 9. "Ops" were carried out, but no trip to Canada followed. On August 9 the crew were briefed for Osnabrück and learned that following this raid they would be flown to Canada.

Lee, went overseas in November 1941 and was posted to his present squadron in May of this year. He has made all his "ops" under Higham's captaincy. These include the three 1,000 bomber raids on Cologne, Essen and Bremen, and nearly all the important raids that have been made on Germany this summer.

When Karl Sveinack, 24-year-old wireless operator has reason to swear that he will never see his family back on his ancestral tongue. Then

an explosive "Helviti" reverberates in the ear-phones of his crew mates. In English that's just plain "Toll!" Karl, whose full name is Martin Gauthlaugur Karl Sveinack, was born in Canada and lives at Elfron, Sask. His father who died when he was a youngster was Icelandic but was born in the United States. His mother is a native of Iceland. Until he was six years old, this stockily-built, blonde, curly headed young westerner spoke only Icelandic, but now he finds it hard sometimes to reach for words in the language of his forefathers—except "Toll!" as he explodes into the inter comm.

He worked in a garage before joining the R.C.A.F. in July 1940. He went overseas in July 1941 and after an extension wireless course was posted to his present squadron in April of this year. Since then he has done 28 "ops," 21 of them with his present skipper.

One of Karl Sveinack's most exciting trips was an early "op" with P.S. Joe Patton now unfortunately among the missing. Joe was a son of "Red" Dutton, famous N.E.L. star and more recently manager of the Brooklyn Americans. "Joe was a good flyer," Karl says. "He got out of a really hot spot at Heligoland. We were chased all over the map by fighters, but he got us away without any engagements."

Karl would have been with Joe on his last trip, from which the latter did not return, but Fate stepped in before the "op" from which his former crew-mates did not return.

P.S. Don R. Morrison, the rear gunner, who will be 21 in November is the son of a locomotive foreman on the C.P.R. and like most railwayman's families he has done a lot of moving around in his younger days.

Don was born at Sault Ste. Marie, went to school at Chalk River, Sudbury and Schreiber, all C.P.R. division points. His parents were living at Chalk River when he enlisted in the R.C.A.F. in October 1940. Since then they have lived in Sherbrooke, Que., and are now residents of Kentville, N.S.

Morrison is known as "Mo" Morrison to his squadron mates, and as "Mo" Morrison his name appears on the trophy board in the squadron gunnery headquarters. There are only two other names on this board. His third, for his last gun brought down the squadron's third fighter victim.

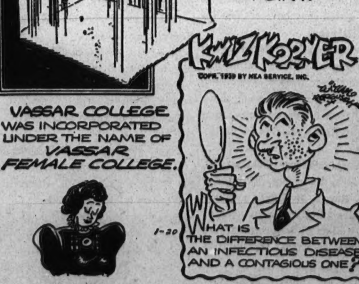

The combat followed the 1,000 bomber raid on Bremen last June. An ME 110 attacked the Wellington over the sea about 30 miles from the German coast on the homeward journey, while the latter was flying at about 1,400 feet through light cloud. "I didn't see him until he was about 150 yards away coming in on our port quarter, and he got in a burst on our first," Morrison related. "About one second later I gave him a leggy burst. He broke off to starboard then, when he was about 300 yards off, banking to come in again to attack us, his port engine caught fire."

The flames spread to his wing as he tried to side-slip, and he fell into the sea. We did a circuit and saw him break up in burning wreckage as he hit the water!" No bullet of his.

## THIS CURIOUS WORLD

By William Ferguson

100 LBS. OF ICE, AT FREEZING TEMPERATURE, CONTAINS ENOUGH HEAT TO RAISE THE TEMPERATURE OF 60 POUNDS OF WATER FROM THE FREEZING POINT TO THE BOILING POINT.

ANSWER. An infectious disease is caused by the entrance, growth, and multiplication of bacteria in the body. A contagious disease is communicated by germs carried in air or water, and can be spread without contact with the patient.

## WE ALL MOULD PUBLIC OPINION

The majority of Canadian citizens are on the march again. With heads erect, eyes front, their ranks are skirting past luxuries and non-essentials, on their way to purchase the new Victory Bonds.

Every man and woman in that parade is performing an extra service for his country. He is setting a powerful example that will attract other citizens into the ranks of the majority.

In these days, we can no longer afford to spend any more than is absolutely necessary for good health. Our sailors, soldiers and airmen are crying for every other penny of our earnings to make their striking power more and more potent. Every time any one citizen answers that cry—resolutely turning his back on the temptation to buy something he does not really need—his example helps materially to create solid public opinion.

When we shut out our short-sighted selfish inclinations so that we can buy Victory Bonds, we not only take a direct part in the war, we perform an invaluable service in crystallizing a strong united Canadian voice that shouts "Nothing matters but Victory!"

## DEMOCRACIES CAN

## NOT BE READY

It would be a stupendous feat were it carried out smoothly, swiftly and without interference. But the fact, in a democracy such as Britain, it never can be carried out before war comes. True democracy can never turn itself into a nation in arms during peacetime. This is the prerogative of a potential aggressor. He knows in his inner council that he intends to make war, and he prepares. He strikes at his selected moment. Democracy may suspect and may take certain precautions, but it can never outdo the aggressor in readiness.

So it was inevitable that the Nazis should be prepared and that Great Britain should not be ready for total war. We in Britain may all have our own ideas as to whether we have been more ready than we were, and I for one preached the gospel of warning against the Nazis from 1936 onwards. But in principle we were bound to be more or less unready.

So we had simultaneously to do two things. We had to undertake a great transformation from total peace to total war, a transformation of thought as well as of deed, and at the same time we had to fight an enemy who strove hard to destroy us whilst he had the initiative and superior strength—Commander Stephen King-Hall, M.P., who served many years with the Royal Navy and retired in 1929. He is an independent member of the British Parliament.

An egotist is a man who always talks about himself when you want to talk about yourself.

Parson (visiting priest): "Am I right in presuming that it was your passion for strong drink that brought you here?"

Prisoner: "I don't think you can know this place, gu'nor. It's the last place on earth I'd come to if I was looking for anything to drink!"

## THE PASS EIGHTEEN YEARS AGO

(The Blairmore Enterprise, 1924)

Aug. 14.—Certain surface rights, formerly owned by the Canadian Consolidated Coal & Coke Company at Frank, had just been purchased by Frank A. Beebe, of Blairmore. The property includes part of legal subdivision 7 and all of legal subdivision 10; south of the C.P.R. track, including the famous sulphur springs. J. Michalsky, of Coleman, made a bid for the purchase of the old Sanatorium hotel and the Gebo residence, which was considered favorably by the Trust & Guarantee Company.

The new \$120,000 coal washer being erected for the West Canadian Collieries Ltd. in Blairmore, will be in operation shortly.

An official welcome was extended to His Excellency the Governor-General and Lady Byng this week on behalf of the Town of Blairmore by His Worship Mayor Archie McLeod. A civic address was read by Secretary E. Wright. His Excellency made a gracious reply. Veterans lined up in charge of Capt. W. J. Fisher. The governor's party were taken by auto to view the Frank slide. The Bellevue band was in attendance at Blairmore.

Lewis McDonald, for a while resident of Blairmore and known better as Kid Burns, was in the toils at Drumheller, charged with perjury.

Mr. and Mrs. B. O. Morrow, of Cereals, were visiting friends at Cowley.

Mrs. Rose Callan purchased the property on Armstrong Avenue in Cranbrook.

Lord Byng had a conference with Ed. Royle, former member of a divisional band which gave a series of concerts to the boys in arms at Etaples, Amiens and the Paris opera house for the benefit of the French Red Cross, and which the French government recognized by complimenting every member of the band.

Miss Janet Nicol has accepted a position on the Blairmore teaching staff.

During the visit of His Excellency Lord Byng to Blairmore, Major Barnard, of the West Canadian Collieries, acted as A. D. C.

J. E. Proctor, district passenger agent of the C.P.R., was in town this week.

The log at the Blairmore tourist campsite recorded registrations to date totalling 612 persons for 1924.

Maurice Bond had the misfortune to lose a portion of two fingers by coming into contact with a saw at the McLaren sawmill.

Aug. 21.—The marriage of Arthur Ennis to Miss Jean Verquin took place this week, Rev. W. T. Young officiating.

K. P. Stewart, J. Hutton, D. M. J. Conway and W. J. Bartlett returned from a successful fishing trip up the Livingstone river. They camped at Snake creek, where Conway fenced in the campsite to prevent the party from falling over a 200-foot cliff.

## TIME BOMBS

What are we fighting for? The right to be able to do what we please? Or the privilege of being able to do what is right?

Who's through in Canada? The man who expects other men to die heroically so that he can go on living selfishly. The wife who thinks she's a Christmas tree—something to hang presents on. The guy who boasts how many miles he has driven without using his ration card.

Who's who in Canada? The man who is inspired, not tired by hard work. Women who are warriors, not worriers. Men who are in training now to build a better world tomorrow.

Civilians, like soldiers, must lighten their wartime equipment. Some people, however, still carry around three loads—past, present and future. If we straighten out the past, and stop worrying about the future, then we can concentrate on being effective in the present. That will make the future nothing to worry about.

School kids are already using chalk on newly painted buildings.

LOCAL GRUMBLERS  
PLEASE READ AND NOTE

Most Canadians accept cheerfully the minor inconveniences of war—less gasoline, tea, sugar, coffee and the like—knowing they are necessary for the war effort. They don't protest, but would welcome more and stiffer restrictions if they would bring victory a day nearer. But there will always be a few who bleat like sheep when their comfort or convenience is disturbed.

For those whiners we reprint part of the report of the chairman of the Leningrad Soviet on that city's last school year which ended on July 1. He said it had been "one of the most remarkable in the educational history of Leningrad," and after that understatement, continued:

"In November, 1941, many of the 90,000 pupils of our primary schools had to carry on their lessons in air-raid shelters, private homes and other improvised meeting places. The school system was maintained even in Krenstadt."

"Frequent air-raids, shelling, shortage of fuel and lack of electricity put a great strain on both teachers and pupils. The ink froze and all lessons were written in pencil. Shells often exploded close to the schools, shattering the windows. The older school children would help the teachers to clear away the debris, then the lesson would be resumed. Head-masters worked side by side with the staff and the pupils to get in stocks of fuel. They collected timber for firewood from the ruins of blitzed wooden houses."

That's an indication of the toughness with which the Russians conduct total war. The grumblers of this country, whose lives have barely been touched by the flame of war, should read it and be ashamed—Calgary Herald.

Coleman's fifteen minutes for sale of war savings stamps realized \$400.

**LIGHT WELL**

BLAIRMORE BRANCH — J. E. WILSON, Manager  
BELLEVUE BRANCH — W. INNES, Manager

The Value of  
Your Local Paper  
in Local Business

THE BLAIRMORE ENTERPRISE plays an important part in all local affairs. It employs wage-earners whose homes are in the district from which it secures business. These wage-earners pay taxes, support various churches, make their contributions to local appeals, take part in community organizations, and spend most of their wages with local merchants. It is no idle boast that The Enterprise has been the means of giving well-directed publicity to this town and district.

THERE is no business institution which gives so much free service as a local newspaper. Were a merchant asked to give the equivalent in goods that the newspaper gives in free service to all organizations, he would find it impossible to meet the demands.

WHEN money is spent for printing or advertising with your local printing office, you are helping local printers to help you. You make it possible for them to serve you better. Out-of-town printing salesmen take money out of the community—pay no taxes, buying nothing from local stores, getting all they can and not caring whether you sink or swim.

AS MERCHANTS expect customers to be loyal to their own community in buying goods from them, so might merchants remember they, too, should follow the same ideals in regard to their local printing office.

## IT'S GOOD BUSINESS FOR ALL OF US!

CUSTOMER goodwill in this town and district can best be developed by regular advertising in your community newspaper. The money spent for advertising and printed matter goes back to local merchants in increased trade.

YOUR dollars do double duty when spent with your local newspaper—they help you directly and others indirectly.

## The Blairmore Enterprise

SELECT NEW COLORS  
ALBERTA 1943 PLATES

Alberta's plates for the 1943 motor vehicle license year, which opens on April 1st next, will be black on orange, according to official information received by the Alberta Motor Association.

Next year, for the first time, cars will carry one license plate instead of two, authority for this step having been given in an amendment to the Motor Vehicles Act, passed at the last session of the legislature.

The 1943 plate will contain a slot so that if there is a shortage of material the following year, a small-type plate of about 2½ inches square can be attached to the old license.

Some time ago the possibility of a shortage of material for the number plates was anticipated by the provincial authorities and orders were placed early for the 1943 plates.

As a result, the 1943 plates have been on hand for some time, according to department officials.

Other provinces have taken steps to adopt the single-license system, owing to wartime conditions. British Columbia adopted the single-license plan this year. In Manitoba the license plates for 1943 will be about 2½ inches square and will be attached to the old license.

RAILROAD WATCH  
SALES CONTROLLED

Wartime control now applies to that accurate timepiece known as the railroad standard watch. Sales of these watches by a wholesaler or a retailer are prohibited unless a railroad employee requiring this particular watch signs an "essentiality certificate." The railroad divisional superintendent must also approve the purchase. Railways are making these forms available to their staffs. Dealers must show completed forms before they can acquire additional stocks.

Canada is dependent upon the United States for her supply of railroad standard watches. The United States has limited sale, so that it is necessary for Canada to follow suit. The object of the measure is to conserve these watches for railway employees.

The order does not apply to sales to the Department of Munitions and Supply, or to three departments of National Defence when watches are used for the armed forces.

Dealers and wholesalers are required before September 15th, to submit a statement in the approved form to the Supervisor of Rationing, Wartime Prices and Trade Board, declaring the number of these new watches in stock on September 8th, together with certain other information concerning them.

Edmonton turned out in typical style to welcome the five Royal Canadian Air Force fliers who currently are touring the Dominion following their epic flight from Britain to Saarbrücken and Canada. Thousands of citizens lined the streets to watch the parade, service men marched, and heads of state formed the welcoming party for the visiting Canadians. On behalf of the province, Premier Abernethy presented each flier with an engraved silver cigarette case in commemoration of the visit. Addressing the airmen, the premier said that their visit was considered a token visit by all their comrades, and the welcome tendered was a token of the greater welcome awaiting the gallant hosts of young men who now serve their country in many theatres of war. Among the rewards which they would have rightly earned in victory, he added, were a greater measure of security, a full-fledged freedom and a deep satisfaction at having done their duty. "We realize that in your hands and in those of your comrades, lies the future welfare of humanity. Daily you carry the fight to the enemy. Each blow you strike is a blow in defence of freedom in its broadest sense." The premier added that the airmen's splendid enterprise "typifies the enthusiastic efforts of our young people to rid the earth of a vicious threat."

## LOCAL AND GENERAL ITEMS

Safe crackers are busy in Alberta.

A wartime price office has been opened in Cranbrook.

Dr. J. Olivier has taken over medical practice at Bellevue.

Dr. J. C. Wainwright of Calgary, spent last week in this district.

According to eyesight specialists, there isn't a blind pig in this district.

Alcohol only will be available for automobile and truck radiators as anti-freeze this winter.

Fernie's baseball team defeated Tony Vojprava on Labor Day—probably the first time ever.

Some youthful car drivers seem to imagine there is nothing more to a car than an accelerator.

Lodovico Grasiozo Pagnucco, of Blaimore, has commenced training as an air frame mechanic at Calgary.

Mr. and Mrs. A. Morency left last week by motor on an extended holiday trip to Ontario and Quebec points.

A \$50,000 home being built for the Dionne quintuplets at Callander, Ontario, is to be completed before Christmas.

In order to permit of dredging, the Sixth avenue footbridge over Crow's Nest river has been removed temporarily.

G. H. Lash, director, and Claude McLean, assistant director of public information, Ottawa, have resigned their posts.

Jack and Baise Eddy, of the Beaver Mines district, were in town on Saturday, accompanied by their brother Fred, of Spokane.

A snake cannot roll its eyes; it turns its head to see sideways. That's why some human beings have been referred to as snakes.

Mr. and Mrs. R. W. Harold Pinkner and Mr. and Mrs. George Sanger left by auto Sunday to holiday in Calgary and Banff.

John Nicholson Cawsey, P.O., son of Sgt. J. N. Cawsey, R.C.M.P., previously reported missing, is now presumed dead in action.

His Excellency The Earl of Athlone, governor-general of Canada, is honorary president and patron of the Salvation Army Advisory Board.

A man was in Blaimore last week seeking information about Pass old-timers, mostly those who have passed on. That will be a "dead" issue.

Father Lyons, 26, the first Roman Catholic priest from Calgary to go on foreign service, is reported safe in Kweilin, China. He left Calgary in October, 1938.

Mr. J. Cardinal, of the provincial government game branch, with headquarters at Red Deer, was a visitor in Hanna on Tuesday of this week. —Hanna Herald.

Innissfail business people netted \$450 in war savings stamp sales in the allotted fifteen minutes, which, including an amount raised on the previous Saturday, totalled \$550.

Oliver Westrup, of Bellevue, has joined up at Calgary as an air frame mechanic. Prior to enlistment he was employed with the staff of the Bellevue branch of the Royal Bank.

About \$600 worth of war savings stamps were sold at Claresholm in the allotted "Fifteen Minutes For Canada." Charlie Lee, a Chinaman, locked up his case and showed his waitresses into the street to sell stamps.

The Blaimore school children have been deprived of the use of the bulk of their playground equipment ever since last Halloween, when the self-considered "clever" grownups caused extensive damage, even to the extent of stealing swings, etc., which have never since been located. It is too bad, for the Blaimore schools were among the best equipped in that line in Southern Alberta, and the perpetrators were deserving of punishment.

MRS. REX EATON

Assistant Director of National Selective Service, who issued clear-cut explanations on women's registration, which is being taken this week, closing tomorrow.

The marriage took place at Coleman Saturday of Katherine, younger daughter of Mr. and Mrs. Nicholas Sandulak, of Bellevue, to Thomas McIntyre Tush, of No. 37 S.F.T.S. R.A.F., Calgary.

Teachers for 1942-43 appointed in the Pincher Creek School Division No. 29 are: Beaver Mines, Miss Beale Oddie; Burnis, Mrs. Jennie Emery; Chipman Creek, Miss E. D'Amico; Coalfields, Miss M. Sutherland; Crook, Mrs. J. McWhirter; Cyr, Mrs. Ken McRae; Fir Grove, Miss M. Lipnick; Gladstone Valley, H. Dunlop; Gadsdill, Miss Carrie Church; Halifax, Miss Elsie McFarland; Lundbreck senior, Miss Lorna Hales; Lundbreck junior, Miss M. Fournier; Lee, Miss H. McIsaac; Marr, Mrs. C. E. Adams; New Yarrow, Miss R. Lynch; Olin Creek, Miss P. Haigland; Passburg, Mrs. L. M. Oelke; Parkview, Mrs. R. Smith; Pincher City, Miss O. Sinnott; Spring Ridge, Miss M. Dudley; Summerview, Mrs. B. Ankil; Todd Creek, Miss I. Lank; Twin Butte, Miss J. Marr; Tanner, Miss Mae Paulsen; Utopia, Mr. A. Ackroyd; Walrond, Miss E. Lynch; Willow Valley, Mrs. C. Linn. Teachers are yet to be appointed for Fishburn, Maycroft, Beauvais, North Fork and Robert Kerr.

"Mummy, what becomes of a car when it gets too old to run?" "Somebody sells it to your father, my dear."

Canada needs glass! Save all bottles. Your Salvage Committee will collect. This advt. not inserted by the Alberta Liquor Control Board, or the Government of the Province of Alberta.

Four cars of scrap metal, weighing about 230,000 pounds, have been shipped from Nanton to date.

A negro preacher was hearing a confession. In the middle of it he stopped the young sinner: "Young man," he said, "you ain't confessin'—you're braggin'."

L. Bazille, brother of Gaston Bazille, is visiting Blaimore, having been absent from town for a great many years. He has been residing in the United States.

The bye-election in Edmonton on Tuesday next will be a five-way contest—C.C.F.-Labor, Liberal, Social Credit, Independent and soldiers' nominees being in the field.

Thinking he had been fishing, Charlie on Monday evening tried to describe his biggest mailard as 22 inches long and weighing 10½ pounds. The skin, with fins and tail, will be mounted.

## COWLEY HAPPENINGS

Mr. and Mrs. G. Rigaux and daughter, of Pincher Creek, spent a few days recently visiting Mr. and Mrs. Charles McKerral.

After spending a few months with her sister, Mrs. X. C. Kaupp, Miss Judie Nicholas will return to her home at Bow Island this week end.

Mrs. Sarah Walker, of Lethbridge, is spending a few weeks here with her daughter, Mrs. Cyril Easterbrook, and family.

Willard Dwyer, who is stationed at a Calgary military camp, spent the week end with his parents here. He expects to be leaving shortly for Camp Borden.

Owing to the rainy weather, harvesting has been held up again for a few days. In spite of several weeks of showery weather, grain growers are patiently trying to take care of the ripening crops.

A government grading crew started

early this week to grade the road to the Cowley airport, beginning at the railway crossing a mile west of Cowley.

After the war corvettes may be used by Alberta duck hunters.

The Flamingo is usually found in Southern Europe, Africa and some parts of Florida. It has long legs and neck, webbed feet and a broad bill. These birds usually travel in large flocks.

## Fourth Year Of War

THE WAR HAS NOW ENTERED its fourth year. In the past twelve months we have had triumphs and reverses, but slowly and surely the offensive is now being taken by the Allied Nations. Since the last anniversary of Hitler's fateful march into Poland, the United States has entered the war on our side, and has taken her place on the fighting front, on land and sea and in the air. We have also entered into a full alliance with Russia, that gallant nation which has held the Nazis at bay in spite of overwhelming odds. At the same time, we have acquired a powerful enemy in Japan, who has broken down many of our defenses in the Far East, and whose strength and determination will not be easily overcome. Great Britain in addition, is faced with difficulty in Iraq, and it is possible that the next year will see further blows delivered to the Empire in the East.

### Position Of Germany

At this time we might compare our position with that of Germany. Hitler marked the third anniversary of the outbreak of war with a speech appealing for still further sacrifices by the people to support the war effort. He also appealed for supplies of warm clothing for his armies in Russia, now facing another winter of that long campaign, which was scheduled to end many months ago. In addition, Germany is now involved in the initial stages of the Battle of Germany. In the autumn of 1940 the Battle of Britain was fought in the skies over England. Now the Luftwaffe is defending the skies over Germany and occupied Europe. The great bombing raids, now being carried out regularly on German cities, show that we are winning this air battle. With the numbers of planes and men from the Allied nations constantly increasing there is no doubt as to the final outcome.

### Canada's Effort Grows

Canada commences the fourth year of the war with the imposition of new and heavy income taxes and with the initiation of Selective Service. Before the end of 1942, the government expects to have added 250,000 persons to the ranks of the armed services and to war industries, and as far as is possible, to have every man and woman in Canada, in the place where they can give their greatest contribution to the war effort. With the armed services and industry geared to greater and greater capacity, there is no doubt that Canada is prepared to play her full part in the offensive that will eventually bring about the end of the conflict. At Dieppe the Canadians showed what they can do in battle, and the people at home must prepare to match their courage and endurance until victory is attained.

Scarcity of imported fruit is giving rise to considerable anxiety lest deficiency of vitamin C should result. Fruits are looked upon by a large public as the main source of vitamin C, and mothers who have come to regard orange juice as indispensable for the artificially fed baby and desirable for all children, are often at a loss to know what to use as a substitute. This very general reliance upon fruit, especially the citrus fruits, is partly due to popular knowledge of their value as a source of vitamin C. It overlooks the fact, none too well known even to those interested in nutrition, that on the whole most vegetables are much richer sources of vitamin C than most fruits. The proverb about "an apple a day" would have been much nearer the truth if it had run "some cabbage each day." People whose main source of this vitamin is a daily apple get from it only one eighth of their vitamin C requirements. Pears, blackberries, grapes, pears, melon and bananas are also poor in vitamin C. Brussels sprouts, cabbage, cauliflower and the salad vegetables, especially mustard and cress and watercress seven or more times as rich in vitamin C as the group of fruits last mentioned. Some of these green vegetables, if they are cooked in such a way as to preserve the vitamin, can provide more of it, weight for weight, than the most orangey of oranges.

The optimal amount of vitamin C (ascorbic acid) needed by an average adult is 75 mg. daily. As a matter of convenience an estimate has been made showing the number of hours supply of vitamin C yielded on this basis by 4 oz. portions of all the well known fruits and vegetables. Typical examples, arranged in order of merit are as follows:

Number of Hours Supply of Vitamin C Given by 4 Ounce Portions	
Blackcurrants . . . . .	70
Brussels Sprouts . . . . .	10
Mustard and Cress - raw . . . . .	28
Strawberries - raw . . . . .	25
Broccoli - cooked . . . . .	25
Cabbage - cooked . . . . .	15
Watercress - cooked . . . . .	20
Oranges - raw . . . . .	16
Lemons - raw . . . . .	15
Gooseberries - raw . . . . .	15
Spinach - cooked . . . . .	15

It will be observed that potatoes are not included in the table, since the method of presentation does not take account of the fact that they are customarily eaten in quantities much larger than 4 ounces. Twelve ounces daily will supply 12 hours requirements. Vitamin C, however, is not among the most stable of the vitamins. It begins to be lost as soon as fruits or vegetables are gathered. This loss continues during storage. Part of the vitamin goes into solution in the cooking water and prevention of some of this loss is one of the main advantages of cooking potatoes unpeeled. Quick rise of temperature and fast cooking —by rapid destruction of the enzyme which would otherwise break down vitamin C—lead to greater preservation than the alternative method of gradual heating from cold water. All slow cooking methods, including haybox cookery, are detrimental to vegetables. Use during cooking of alkalies like bicarbonate of soda increases the loss of vitamin C.

Canned fruits and vegetables may contain anything from 50% to 100% of the vitamin C of the fresh materials, the amount varying with the fruit or vegetable, and the method of canning.

Cooked green vegetables, rubbed through a sieve, can be given to young children, or raw vegetables such as swedes or carrots can be finely grated or pulped and served.

A postal card to the Western Division Health League of Canada, 111 Avenue Road, Toronto, Ontario, will bring you a free vitamin chart for ready reference.

### Had A Surprise

American Soldier in London Rode in Queen's Limousine

Private Ora Foster, 22-year-old soldier from Pontiac, Mich., said that "like most soldiers, I did all the talking" when a lady graciously gave him a lift in her limousine.

Finally she asked: "You don't know who I am, do you?"

He replied: "I can't say as I do."

She identified herself as Queen Mary.

"I couldn't think of a thing to say," Foster confessed.

Foster was walking along an English country road one evening when he hummed a ride in the big car.

### You GIRLS WHO SUFFER DYSMENORRHEA

If you suffer monthly cramps, backache, distress of "irregularities," nervousness—due to functional monthly disturbances—try Pinkham's Vegetable Compound Tablets, with added iron. Made especially for women. They also help build up red blood. Made in Canada.

### GEMS OF THOUGHT

#### OVERCOMING

Real glory springs from the silent conquest of ourselves; without that the conqueror is only the first slave.—James Thomson.

It is not so much being exempt from faults, as the having overcome them, that is an advantage to us.—Alexander Pope.

You will find it less easy to uproot faults, than to choke them by gaining virtues.—John Ruskin.

If one lives rightly, every effort to hurt one will only help that one; for God will give the ability to overcome whatever tends to impede progress.—Mary Baker Eddy.

If any speak ill of thee, fly home to thy own conscience and examine thine heart. If thou art guilty, it is a just correction; if not guilty, it is a fair instruction.—George Herbert.

Draw the curtain of night upon injuries; shut them up in the tower of oblivion and let them be as though they never had been.—Francis Bacon.

### DEFLATED NOW

Not long ago, when he regarded himself as the cock of the walk, Mussolini talked of how he meant to restore the glories of the Roman Empire. He is not crowing now. The truth about Mussolini is that he has become nothing but a deflated gas-bag.

### OF MORE VALUE

Claiming \$30 and a bundle of ration books she had included by mistake in a donation of salvage in Aberdeen, Scotland, a woman was more worried about the ration books than the money.

### Men Like This Bran Fruit Pudding

Defense wives who are having trouble getting their men folks to eat their daily quotas of milk and eggs should clip this recipe for All-Bran Fruit Pudding. A tempting, satisfying dessert, it contains two eggs, plenty of milk, plus dried fruit, nuts and crisp rich-iron shreds of bran. For a light meal, this is a superb finish, hearty and nourishing. These are the directions:

All-Bran Fruit Bread Pudding  
1 cup 1/2-inch bread cubes  
1/2 cup All-Bran cereal  
1/2 cup chopped nuts  
1/2 cup chopped dates or figs  
2 eggs  
Toast bread cubes and combine with All-Bran, nuts and fruit; turn into shallow greased baking dish. Beat eggs well; add milk, sugar, salt, vanilla and butter; pour over bread cubes. Place dish in pan of hot water and bake in a moderately hot oven (375 degrees F.) 50 to 60 minutes. Serve warm or cold.  
Yield: Six to eight servings (8 x 9 inch dish).

### The Individual

Citizen's Army  
A Weekly Column About This And That In Our Canadian Army.  
By Anna Maurice Irvine

Three weeks ago I devoted this space to the subject of drill. Here comes the same subject again because we have been given an object lesson by our own soldiers at Dieppe in its value. For the past two years instructors have referred to an incident at Dunkerque as an illustration of the value of drill as a discipline builder. It was an evacuation of the beach by The Guards.

Newspaper despatches said: "The Guards brought their rifles with them."

That was all! But it was quite enough. No-one would have criticized them if they had left their equipment behind on that shell-swept beach—nearly everyone did leave his equipment behind and there were no recriminations. But, "the Guards brought their rifles with them." It has long been fashionable for Line Regiments to sneer gently at the Brigades of Guards for their meticulous adherence to parade ground soldiering. The sneers were good-natured, of course, as all bickering between regiments is, and no-one really believed what he said.

Not after Le Coteau in the last war, or after Dunkerque in this! Now we have a new tradition, a new example of how well-drilled soldiers act in a tight place—the Canadians at Dunkerque!

Here is a quotation of one of the early cables from the Channel front written by Ross Munro of the Canadian Press who went ashore with the Canadians.

"One group of the Westerners was in such good form that even after a five-hour battle they smartly sloped arms and marched aboard the boat that picked them up."

The "Tankers" have earned a place in military history, too! Of them another Canadian Press despatch said:

"Crews of the Calgary Tank Regiment, which led the way into Dieppe yesterday, drove the remnants of their battle-smashed tank formations through this town tonight."

Those two examples of the intelligent discipline that grows out of drill will be quoted by many a drill-sergeant, by many an officer lecturing to recruits in the next few years and will, I hope, be borne in mind by those of us who are apt to criticize without thinking.

Some of you are bound to be asking, just about now, "what's he trying to get at? Surely he doesn't suggest that the raid on Dieppe was put on just to demonstrate the value of parade ground drill?"

No, I don't suggest that for one moment. In fact any columnist who tries to say why the Dieppe raid was made would be a fool. There are many reasons why a military high command decides to stage a raid—especially with the war conditions that confront us at present.

And the high command cannot take even the public that pays it its confidence. We'll have to be kept guessing about it—and so will the enemy.

Perhaps its intention was to find out the defense system employed by the enemy.

Perhaps it was to draw attention from some other move. Perhaps the idea was to find out the morale of the enemy now in France.

Perhaps it was designed to disrupt communications by causing a rush of reinforcements to the place attacked. Perhaps it was a realistic training scheme in the co-operation of Navy, Army and Air Force.

Perhaps it was for none of those reasons, but whatever the reason was members of the Individual Citizen's Army may be sure that "Andy" McNaughton who would rather expend machinery than lives, had the best of all possible reasons and that the lessons learned and the knowledge gained will be used to prosecute this war and hasten the Allied victory.

In the meantime new recruits who join up here as volunteers for service anywhere will start out with squad drill without arms, the manual of arms, musketry and all the other "kindergarten" work that teaches them unity, cohesion and intelligent discipline so that they, too, when their opportunity comes, will be ready to "slope arms and march abroad."

The men who took the beaches at Dieppe and played their part in demolishing the town have found out after weary months and years of waiting what war is like.

That is something we have still to find out.

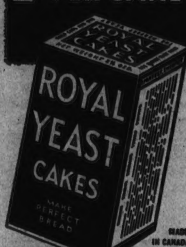

So far we have only bought a few bonds, licked a few war savings stamps, given to the Red Cross and the Buckhake Fund—that sort of thing!

We haven't sacrificed anything. We don't sweat for the war.

Public men rap us on the knuckles if we say that Canada is not doing a full job of war work. They raise a smoke-screen of empty eloquence to boast of what is being done. They promise that some day the government will place the whole war effort on a wartime basis, but in the meantime too many of us carry on with our bridge and our golf. We stick nobly to the rations of tea and coffee and sugar and gasoline—and sneak out of all-out service by buying cakes and pastries with sugar in them, by drinking tea and coffee in restaurants and hotels, by using taxi cabs to take us on our useless errands when our own tanks are empty.

We are long on talk and short on discipline. What we need is drill, and lots of it, thrown at us by tough sergeants with a rasp in their voices. Could we march aboard with our rifles at the slope?

## Wheat Crop Is Estimated At All-Time Record

Ottawa.—The Dominion Bureau of Statistics estimated Canada's total 1942 wheat production at 615,245,000 bushels—an all-time record.

The bureau said the estimated 1942 production was almost double the 311,525,000 bushels produced in 1941 and exceeds by 48,517,000 bushels the previous record crop of 566,726,000 bushels harvested in 1928.

The unprecedented production was being realized despite a drop in 1942 wheat acreage from that of 1941 to a figure "substantially below" the average for the preceding 15 years.

The exceptionally favorable weather conditions during the growing season in the prairie provinces, where more summer-fallow land was available for wheat growing than in any previous year, have resulted in the harvesting of new high per acre yields, the bureau said.

In eastern Canada and in British Columbia wheat yields were better than in 1941. The 1942 fall wheat crop in Ontario totalled 23,997,000 bushels and spring wheat production in all provinces amounted to 581,246,000 bushels. The latter figure includes the 1942 wheat crop in the prairie provinces estimated at 587,000,000 bushels, which is twice the 1941 crop of 293,000,000 bushels.

By provinces, the 1942 wheat estimate for the prairies is distributed as follows: Manitoba, 52,000,000; Saskatchewan, 350,000,000; Alberta, 185,000,000 bushels.

The estimates for Manitoba and Saskatchewan include durum wheat production of 2,700,000 bushels and 7,000,000 bushels respectively, making a total 1942 durum wheat production of 9,700,000 bushels.

Because of the heavy rains and cool weather during the growing season, harvesting in the prairie provinces is just getting into full swing with a week of good drying weather having elapsed since the rains at the end of August, the bureau said.

Because of the lateness of the crop, it is still too early to make an appraisal of the quality, although frost has already lowered grades in northern and northeastern Alberta and northwestern Saskatchewan, it added.

Feed grain supplies for Canada as a whole now are the "best in history," with a record production of oats and barley accompanying Canada's largest wheat crop. Not only were the acreages sown to oats and barley considerably expanded over the prairie provinces but new high average yields for both grains in the three provinces were established.

For all Canada the 1942 production of oats is estimated at 660,716,000 bushels, which is more than double last year's production of 305,575,000 bushels. Production of barley in Canada is placed at 272,910,000 bushels, almost 2½ times the 1942 production of 110,566,000 bushels. Fall rye is estimated at 19,381,000 bushels, and spring rye at 7,113,000 bushels, making a total rye production of 26,494,000 bushels, compared with the 1941 crop of 11,659,000 bushels. Both the acreages and yields per acre of rye were higher in 1942 than in 1941.

Flaxseed production for all Canada is estimated at 19,981,000 bushels for 1942, compared with 6,566,000 for 1941. Flaxseed acreages and yields in 1942 were both substantially higher than in 1941.

Production of hay and clover in 1942, at 15,498,000 tons, shows an increase of 2,866,000 tons over 1941 production.

## THREW A BOMB

Fifty Belgian Citizens Are Arrested As Hostages

London.—A Reuters correspondent in Stockholm quoted a Brussels despatch as saying 50 prominent citizens of the Belgian capital had been arrested as hostages following the throwing of a bomb in a cinema during the showing of a German eastern front film.

One girl in the audience was killed and many persons wounded. German occupation authorities ordered the municipality of Brussels to pay damages to the cinema and deliver 5,000 bicycles to the Germans, the despatch said.

## DANES WERE SMART

London.—British officials hear that as firebugs, Danish saboteurs are really hot stuff. After setting a recent blaze they proceeded to turn in false alarms for other plants. So by the time the firetrucks reached the real blaze, considerable damage had been caused.

## SENT FROM BRITAIN

Gum Factory Was Dismantled And Shipped To United States

Philadelphia.—A gum factory which six months ago stood in a bomb-damaged city in England has been dismantled and shipped piece by piece to U.S., Edward R. Stettinius Jr., lend-lease administrator, said.

Stettinius, in an article in the current issue of the Saturday Evening Post, cited the transfer to show that lend-lease now is "no longer a one-way street" directly aiding only U.S. allies.

"It was easier and faster to ship the factory than to ship the guns," he wrote. "We paid nothing for this arsenal. Britain considers itself amply repaid by the damage these guns will inflict on the Germans and Japanese in the hands of our soldiers."

Britain has also sent "several thousand barrage balloons to protect vital spots along our coast" and from England and other Allied nations the government has received "guns and tools, military and scientific information—anything which they can spare and we are in a better spot to use than they are."

## Say Shortage Of Timber Is The Worst In History

Ottawa.—Munitions Minister Howe said that Canada faces "the gravest timber shortage in her history," and announced an eight-point governmental program to assist operators in stimulating output and to curtail civilian use of forest products.

Production in 1941 was approximately 5,000,000 feet but because of the labor shortage 1942 production may be substantially less, he added. Commitments for the remaining four months of the year called for delivery of 1,940,000,000 board feet for war purposes, of which about three quarters is for Britain, the United States and other Allied nations.

Mr. Howe said "this means that we will have no new lumber to spare for the civilian. Any the civilian gets must come from inventories, mainly in eastern Canada."

"The seriousness of the situation is underlined by the need for extra storage facilities for the bumper crop in the west. Limited quantities of lumber must be made available for building these storage facilities."

The eight-point program, worked out and to be administered by A. S. Nicholson, timber controller, was announced as follows in the department statement:

"1. Effective today, the lumber and logging industry is officially classified as an essential industry."

"2. The director of national selective service (Elliott M. Little) will provide, at the earliest opportunity, more manpower, chiefly bush labor, for the year-round Pacific coast timber area, and for fall and winter logging in the east."

"3. The use of timber by civilians, industries, railways, and municipalities will be rigidly controlled. Restrictive measures will be announced shortly and more stringent control will be exercised over the use of forest products by the Dominion government and its agencies."

"4. The production of newspaper will be controlled by the United States administrator of the wartime prices and trade board (R. L. Weldon of Montreal) to conserve power and labor and to divert pulpwood logs into the making of lumber. Already quantities of pulpwood logs have been shipped to the sawmills, and pulpwood camps are being switched over to the production of sawlogs."

"5. The export of logs from the Pacific coast area to the pulp and paper mills on the United States Pacific coast will be restricted drastically. These exports are now about 15,000,000 feet of hemlock and balsam logs per month. The export of fir logs is already prohibited."

"6. To spur production, price increases on certain grades of lumber will be permitted. These increases will be absorbed by the retailers and industrial users, and will not be passed on to the civilian consumer. Retailers may obtain relief if and when the squeeze is too great."

"7. A lumber division of the Commodity Prices Stabilization Corporation will be set up immediately. With an experienced lumberman at its head, this division will provide financial assistance where and when it is required to stimulate economic production. No sound lumbering operation will be held up for lack of financing so long as it is practical and in the national interest."

"8. The general trading policies and customs of the industry will be maintained."

## COMMAND IN PACIFIC

Major-General G. R. Peakes, V.C., now commanding the 1st Canadian Division overseas, has been appointed general officer commanding-in-chief Pacific command.

## BRITISH PRISONERS

London.—At least 77,000 British war prisoners are in Axis hands. This was made known in the House of Commons by War Secretary Sir James Grigg. He said that the figures, as of August 25, did not include those captured in Malaya and most other Far Eastern areas, with the exception of Hong Kong.

## GERMAN LOSSES

Subjects Issue List Of Nazi Casualties In Russia

Moscow.—A special Russian announcement said that 73 enemy divisions were routed by the Soviet army in fighting on the Russian front from May 1 to Aug. 31.

The Soviet bureau of information statement said that during the same period 42 Soviet rifle divisions and 25 brigades, of which 14 were tank units, suffered considerable losses.

The announcement said that 70 per cent of the fighting effectiveness of the routed divisions had been annihilated.

The bureau listed 54 German divisions that were routed, comprising 34 infantry divisions, four motorized, two motorized S.S. (elite guard), two mountain infantry, and 12 tank divisions.

Other Axis divisions routed were: Rumanian—Five infantry, two mountain, one cavalry.

Hungarian—Five infantry, one tank.

Italian—Two infantry, one motorized, one Alpine.

Slovak—One motorized.

Also routed, the announcement said, was a "legion of Danish Hitlerites."

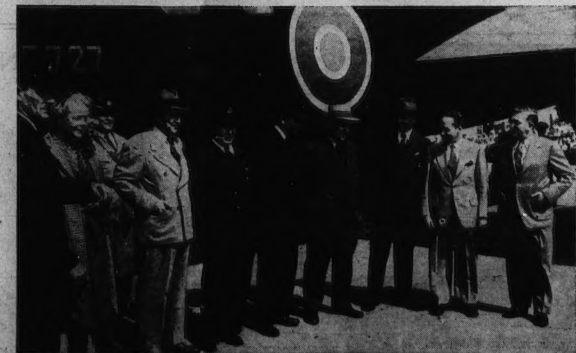

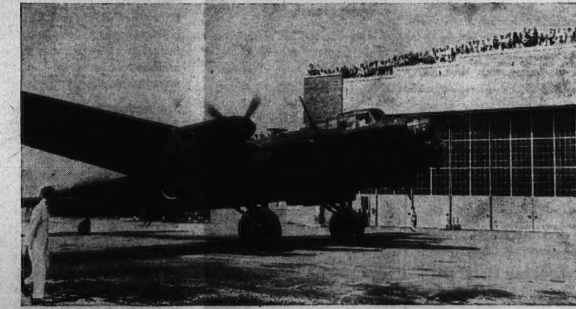

In addition, the announcement said 21 German infantry divisions suffered severe losses—"from 40 to 50 per cent of their effectiveness" in the same period.

## Mrs. Churchill With U.S. Nurses

Mrs. Winston Churchill, wife of Britain's premier, is shown (centre) with a group of U.S. army nurses at the opening of the new American Nurses' club in London's Charles St. A big mansion was taken over and transformed into a comfortable club for the nurses as a place where they can relax and meet during leave in London.

## Giant Bomber Reaches Canadian Factory

The world's mightiest bomber is the Avro Lancaster pictured above at Malton airport, near Toronto, where she is now on display. This war-bird, soon to be in production at a Canadian factory at Malton, was flown across the Atlantic as a single ship. Below is a group of distinguished visitors viewing the plane. Left to right in the centre of the group are Capt. Newton Collins of Mississippi, the co-pilot, Capt. Clyde Pangborne, pilot of the bomber, and the Hon. C. D. Howe, minister of munitions and supply.

## WAS GRATEFUL

Canadian Soldier Appreciates Gallant Act Of Sailor

London.—A Canadian soldier has adopted a British sailor in appreciation of the sailor's gallant act which enabled the soldier to have a last word with his young son who was fatally wounded at Dieppe.

The soldier is W. Emperingham and the seaman G. F. A. Thomas of Liverpool. Emperingham went to Canada from Britain and settled in Saskatchewan after the last war and returned for this one with his three sons, all members of the Canadian army.

Thomas found Emperingham's son wounded on the beach at Dieppe and carried him to the ship on which the father had embarked. When Emperingham discovered that Thomas' parents were killed in an air raid, he decided to adopt him to replace the son who died.

## A DRASTIC MOVE

United States Assumes Control Of Commercial Cars In November

Washington.—The U.S. office of defence transportation has announced it would assume sweeping control over millions of commercial vehicles Nov. 16, including rationing of gasoline, tires, tubes and accessories to such vehicles.

Described by O.D.T. as "a drastic move to obtain further conservation of such equipment for war purposes," the order will supplement conservation regulations already in effect.

Approximately 5,000,000 trucks, 150,000 buses, upwards of 50,000 taxicabs and similar vehicles will be required to carry a certificate of war necessity in order to obtain fuel, tires, tubes and accessories.

## FISH FOR BRITAIN

To Organize Large Pack Of Herring And Salmon From Canada

Saint John, N.B.—"We are trying to organize as large a pack as possible of canned herring for Great Britain—all of the herring canned this year is being requisitioned to fill British requirements and for our armed forces overseas," Fisheries Minister Michael said here. "The same applies to all the salmon which is canned on the Pacific coast."

"Canadians will have to be satisfied with fresh, frozen, salted and pickled salmon and herring, although other varieties will be available canned," he declared.

## WHEN PEACE COMES

Benoni, South Africa.—The municipal council of this Transvaal town is considering a post-war scheme for the employment of discharged soldiers which will cost £2,000,000 (\$8,900,000).

## Adopt New Plan For Call-Up For National Service

Ottawa.—Pre-classification of men who are possible candidates for military call-up is regarded in informed circles as one of the most important features of the new manpower set-up which will link the call-up with needs of essential industry under the control of national selective service, a branch of the labor department.

Under present conditions practically all men outside the immediately eligible group—single men and childless widowers from 20 to 40—are uninforming on the possibility of their being called up. It is envisaged as an extension of the call-up provision.

The new plan, it is understood, provides for pre-classification as to essentiality in civilian occupation and pre-medical examination of men likely to become subject to call.

Such action, it is believed, would relieve uneasiness and uncertainty which now is felt by both workers and employers. From the standpoint of the employer the greatest value would be an advance warning so that a substitute worker could be trained.

Employers are likely to be asked to classify their employees into such groups as dispensable, dispensable on short notice, dispensable on long notice and indispensable.

A. Gunn, assistant secretary of the British ministry of labor and national service, who has been loaned to the Canadian government, is expected to have an active part in making Canada's new manpower plan effective.

Needs of the armed forces and industry for the last five months of the year are placed by Elliott M. Little, director of national selective service, at 250,000 people.

With only some 60,000 fully employable men shown to be without jobs in the June registration, and many of these presumably since employed, it is obvious that men now in industry and other occupations will have to fill the needs of the armed forces, some 150,000.

## Establish War Time Board Of Information

Ottawa.—Establishment of a 10-man wartime information board was announced by Prime Minister King.

In addition to Charles Vining, chairman, and Hon. P. Philippe Bessis, vice-chairman, who were appointed last month, the board members are:

Georges Bouchard, assistant deputy minister of agriculture;

Henry Borden, K.C., general counsel, munitions and supply department;

R. B. Bryce, special assistant, finance department;

Mr. Justice T. C. Davis, associate deputy minister of national war services;

Col. H. A. Dyde, secretary, defence council;

A. D. P. Heeney, clerk of the privy council and secretary to the cabinet; Elliott M. Little, director of national selective service;

L. B. Pearson, minister-counsellor at the Canadian legation in Washington.

L. Clare Meyer, clerk of the senate, has been appointed board secretary.

The announcement said the board will not function as an administrative body but "as a representative body establishing the inter-departmental character of the information services."

Creation of the board was recommended by Mr. Vining in a report made for the government on Canadian information distribution in U.S. "The members of the board will be concerned with matters of general policy and general supervision of expenditures," said the prime minister's statement.

"The actual operation of the board's information services will be carried out by the executive officers and staff of the board."

The public information division of the national war services department, headed by G. Herbert Lash, has been transferred to the new board, with all its personnel.

The announcement said the object of this reorganization, as defined in the order-in-council covering it, is to ensure "an informed and intelligent understanding of the purposes and progress of the Canadian war effort and its relation to the common effort of the United Nations."

Andy Linn, of the R.C.A.F., is spending a short leave with his mother here.

Honest Saskatchewan met a bond maturity of \$2,638,900 and 4% interest on September 15th.

Douglas Lord, R.C.N.R., arrived yesterday on a three weeks furlough with relatives and friends. Douglas has been member of the crew of a corvette and has crossed the Atlantic a few times in convoy.

S. Trono and Joe Misson journeyed to Lethbridge by auto on Wednesday evening, where they joined a Trans-Canada plane for Vancouver, reaching there in about two hours and twenty minutes flight.

The roof of Derezno's skyscraper has been undergoing repairs during the week.

While in Calgary recently, Mr. and Mrs. H. Upham celebrated their twentieth wedding anniversary.

Miss Adele Sylvester arrived from Vancouver yesterday on a visit to her father, Mr. Frank Sylvester.

Mrs. F. R. Keer, of Macleod, is a patient in the Macleod hospital, having undergone an operation.

Constable G. R. Stewart, of the local R.C.M.P. detachment, has been relieving Corp. J. G. Peace at Macleod.

From now on you'll have to turn in an empty metal tube before you can buy a tube of tooth paste or shaving cream.

"I'd just love to be a farmer, to live with the blue sky overhead." "That would be alright if the blue sky was the farmer's only overhead."

A real optimist is a fellow without money going into a restaurant and ordering orders, in the hope that he will be able to pay for his dinner with a pearl.

Mrs. Clifford Harris and daughter, of Calgary, are house guests of Mr. and Mrs. Hartley Upham. Mrs. Harris is daughter of Mr. and Mrs. James McDougall, of Calgary.

The death occurred at St. John's, Newfoundland, last week of Rev. Levi Curtis, D.D., for many years associated with the educational movement, and of late years superintendent of education. He was in his 85th year.

An interesting visitor to Blairmore yesterday was a half-grown Wilson snipe, which paraded up and down our main street, the purpose being to give local hunters an idea of what the snipe looks like. It appeared to be quite tame as it kept an eye on passing cars and pedestrians.

Rev. F. E. Boothroyd formerly of the Methodist Church in Newfoundland, later in Alberta at Irma and Taber, now president of the Maritime Conference of the United Church of Canada, will be heard from Montreal through CBK and network on Sunday at 12:30 M.S.T. L. W. Brockington, K.C., will be heard from Winnipeg at 7 p.m.

The office of the National Selective Service and Unemployment Insurance has been moved to the ground floor of the building opposite the Greenhill hotel and next door west of the Greenhill Grill, premises formerly occupied by the Upton Tailoring Co. James Lote is in charge, with Miss Aileen Picard as head stenographer. The premises are being nicely arranged, and eventually will be enlarged.

## Crows' Nest Pass Musical Festival

A meeting of all committees of the Crows' Nest Pass Musical Festival will be held on Thursday evening next at 8:30 p.m. in the Cosmopolitan Hotel parlor. All are urged to attend.

JEAN MARCHANT, Secretary.

## Seven Million for What?

During 1941 owners of motor vehicles in Alberta contributed \$7,113,956 in the form of licenses and taxes to the Provincial Government.

These taxes were originally applied to obtain money for good roads, but a large percentage of same is being diverted to other purposes.

The Alberta Motor Association advocates that surplus revenue collected from motorists during the war should be placed in a trust fund (War Loan Bonds) to be used for road building and maintenance when peace comes.

Every owner of a motor vehicle should support this policy.

## Local and General Items

The Editor will be glad to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, showers, presentations, anniversaries, etc. Phone items in to 11 or hand them in at The Enterprise office not later than Thursday evenings.

The Japs are reported to have bombed Oregon forests.

Dahlias measuring 12 inches across were on display at Bellevue on Wednesday.

The Gris-Duncan Fishing Company are busy this week exploring the possibilities of the upper Elk river.

Pte. Leslie Chester Irvine, brother of Mrs. Ada Margaret Irvine, of Macleod, is listed as missing at Dieppe.

Mrs. Irene Chenell, a Stellarton, Nova Scotia, woman, has fourteen relatives prisoners of war in Hong Kong.

We thank the Calgary Herald for so well portraying Bartlett and a local lady trying to reach their post office boxes.

Shelving space at the Blairmore vendor store is being enlarged to accommodate the Christmas stock to arrive shortly.

Very few from this district took in the opening day of duck shooting on Monday, owing to country trails being in bad condition on account of rains.

Nova Scotians are hollering for more rain. It is claimed that the season has been so dry that water is scarce and livestock has had to be moved to the shores of large lakes or streams for water supply.

The sixtieth annual (Diamond Jubilee) congress of the Salvation Army will be held in Toronto on October 17-20, with the Army's international leader, General George L. Carpenter, presiding.

Clifford Uphill, who had been overseas for the past two years, and who returned a few weeks ago to visit his parents at Fernie, has been given a commission at Gordon Head. He is with the Royal Canadian Artillery.

A credit agreement under which Russia may draw up to approximately 9,000,000 bushels of hard spring wheat or flour was signed last week by representatives of the Canadian and Soviet governments. This is the first major wheat deal ever negotiated between the two countries.

Chicago is credited with being the world's greatest railway centre. It is served by twenty-one class one railroads, and fourteen switching and terminal companies which operate 8,000 miles of trackage in the Chicago terminal district. More than 3,000 passenger and freight trains enter or leave the city daily.

The average guy around Southern Alberta who is interested in sport, such as fishing, shooting, camping, etc., is puzzled at Premier Aberhart's letter to the Game Trails magazine. They doubt if he knows anything about handling a rod or line, a gun, a horse or a camp. "Let's have something from a 100% somebody!" they request.

A Poole Construction Company outfit that had been used for some weeks crushing road surfacing material for the West Canadian Collieries Limited, for use on their extensive private road projects, was shipped away the early part of the week. The coal company maintains many miles of roads leading out of Blairmore, which have to be kept in good condition the year round.

A reader has hit upon a new way for subscribers to keep track of the expirations of their subscriptions to The Enterprise. He suggests that they subscribe on their birthdays, and make it a point to come in each birthday and renew. He adds the persuasion that by so doing they would insure living one year more, as no man was ever known to die with his subscription paid-up, so this method would be bound to beat any old-time insurance.

Viscount R. B. Bennett arrived in Calgary the early part of the week.

Constable and Mrs. Simbalist, of Hilda, have been holidaying in Coleman.

Corporal Jack Weaver, of Natal, is listed as missing following the Dieppe venture.

Mr. and Mrs. G. Meffan returned Monday from their holiday trip to the Pacific coast.

American women bought 43,000,000 dozen pairs of full-fashioned silk or nylon stockings during 1940.

The Alberta government has this week defaulted on another bond maturity, this time \$2,948,000.

Latest figures of Dieppe allied casualties total 3,350, made up of 170 dead, 633 wounded, and 2,547 missing.

H. M. Welsh, of Hillcrest, is listed among the latest from this district to join the active army. He is in Calgary.

Vernon Charles Leonard, son of Mrs. Lillian M. Leonard, of Crows' Nest, is listed as missing in the Dieppe engagement.

George Meffan met Wilfred Godard in Vancouver. Wilfred was a former fast member of Blairmore's hockey stars.

The little town of Stettler, Alberta, suffered most heavily in the Dieppe raid. At least 25 boys from that town have been listed as missing or dead.

"The test of any society, founded on Christian principles, is to be seen in its redemption of waste humanity and the re-making of men. To this test the Salvation Army is continually responding. Canada is distinctly better for its mission."—Rt. Hon. W. L. Mackenzie King.

Mr. and Mrs. D. A. Perry visited friends in Bellevue, Blairmore and Coleman over the holiday. They were present at the flower show in Bellevue, which they describe as a very beautiful display, surpassing their expectations. Bellevue employs three men throughout the season to look after all public gardens, which results in the above exquisite production. This in turn is an incentive to private citizens. A very excellent plan.—Strathmore Standard.

A week or so ago, a party of five from Blairmore ventured to the Race Horse creek, accompanied with permission to catch and take the allotted limit of 20 fish per day. This party reported having caught eight fish the first day, and seven fish the second day, making necessary the addition of several cans of goods to make a meal worth while. This is just one real anti-booster for fishing in Alberta's streams. Even the fish are trying to crawl out of their territory temporarily controlled by a government.

"Why is it that all weddings are so pretty?" asks Jerry.

India is rated as one of the eight leading industrial countries of the world.

Wanted, a cartoon showing Premier Aberhart assisting an Alberta farmer at stooking.

Sign in the office window of a Crows' Nest Pass nurse pictures twin storks bringing in twin babies. That's boosting alright!

Corp. Arnold Butler, son of Frank Butler, Macleod, and Trooper John David White, son of Mrs. Rose White, of Bellevue, are reported missing in the Dieppe engagement.

Revenue from automobile licenses in Great Britain in the first eleven days of July this year was only nine per cent of the revenue for the same period in 1941—the immediate result of the cessation of the basic gas ration.

"These cold-blooded executions of innocent people will only recoil upon the savages who order and execute them. . . . They are but a forest of what Hitler would inflict upon the British and American people if only he could get the power. Retribution for the crimes must henceforward take its place among the major purposes of the war."—Winston Churchill.

India pays no taxes, direct or indirect, to Britain.

## WESTERN FARM SCRAP GOES TO WAR

Western farm scrap is getting into Canada's scrap through the Prairie Provinces' drive for old metals staged by Wartime Salvage Corporation. Left: Part of a 1,000-ton pile of Western scrap just arrived at the plant of Hull Steel Foundries, Ltd., Hull, Que. Right: Some of that scrap, melted into new alloy steel, is poured from an electric furnace for casting into vital equipment for Canada's war effort.
